TEXT-TO-SELF CONNECTIONS

This week's activity is all about text-to-self connections. Text-to-self connections refers to connections made between the text and the reader's personal experience. The reader may connect ideas or situations presented in the text with their thoughts, past travels, family members, or friends. Connecting the text to themselves will give readers insight into what a character might be feeling or how an idea came to light. Text-to-self connections enable readers to utilize first-hand knowledge for a more memorable and meaningful reading experience.
